In an attempt to re-open some of the concerns of German Idealism, in particular its engagement with the notion of musical autonomy, this thesis undertakes to bring into relief the salient features of the epistemological configuration of the early post-Cartesian paradigm and its consequent attitude to music, grounding this undertaking in a sensitivity to the historical predicament of that paradigm and to the hermeneutic requirements of texts from that period. More than anything however, Village of Secrets makes it clear that the truth is rarely simple.
